Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 November 2005.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Status of the claims is as follows:

Claims 2, 6-16, and 18 have been withdrawn from consideration.

Claims 3 and 19 have been cancelled.

Claims 1, 4, 5, 17, and 20-24 are hereby addressed below.

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

The applicant's information disclosure statement dated 2/25/2005 has been considered and a copy has been placed in the file.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 4, 5, 17, and 20-24 are further rejected under 35 U.S.C. 103(a) as being unpatentable over European patent to Queveau in view of WO patent No. 01/14665 to Larabel. European patent to Queveau discloses a vehicle door assembly (1) having an outer door skin (2), an inner door panel (3), a waterproof trim panel (4) mounted adjacent to the inner door panel (3) providing a "complete" waterproof barrier between two spaces, a latch mechanism (8), a manually actuable element (97), and a bezel (96, specification calls element 97 a cap which would serve two purposes, one as a bezel for the manually actuable element (97) and the other is to provide a "sealing

Art Unit: 3634

arrangement" between the cap and the trim panel) secured to the trim panel (4).

European patent to Queveau fails to disclose an O-shaped seal between the manually actuable element and an opening in which the manually actuable element is moved.

WO patent No. 01/14665 to Larabel discloses an O-shaped seal (page 8, lines 12-16), which seals between a door panel and a projection into the door panel. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide European patent to Queveau with an elastic seal ring as taught by WO patent No. 01/14665 to Larabel since an elastic seal ring protects the interior space from the entry of air, water and/or other contaminants.

The Examiner's response is to the applicant's remarks dated 8/11/2005. The applicant's arguments have been considered but are not deemed persuasive. The applicant argues that the "entire" trim panel would not be waterproof. Does the applicant mean that the panel having cutouts that will be filled later via other elements would not be waterproof? Does the applicant claim a solid continuous trim panel without cutouts? As is the trim panel does provide a waterproof barrier between the two spaces. Since the trim panel of Queveau is waterproof, it appears that the broadly recited claims still read on the art of record.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Jerry Redman at telephone number 703-308-2120.
